The section that extends outside the frame of the board is to protect the incoming mains cables. The plate can be reoriented to suit either direction.

When paired with the corresponding CUB0 Flush Mounted Switchboard, provides mechanical protection at a minimum requirement of WSX3 for wiring systems positioned behind the switchboard, concealed near building surfaces. [Please see Sections 3.9.4.2, 3.9.4.4, and Appendix H5.4 of AS/NZS 3000 for further details].
